

Botox

Botox is a simple non surgical treatment that is used to smooth and soften frown lines between the eyebrows, forehead and crows feet, restoring a more youthful appearance.

Restylane and Juvederm

These dermal filler substances will reduce facial creases and increase fullness of the lips, reduce unwanted perioral lines and soften nasolabial folds and marionette lines. The result is instantaneous and produces a long lasting natural enhancement.

Sculptra

Sculptra is an injectable product that restores and corrects the signs of facial fat loss by replacing lost volume. It provides an increase in skin thickness helping to create a more natural youthful appearance.

Consultation

Our Clinical Aesthetician will examine your skin and discuss a treatment plan to address specific skin needs.

Skin Care Products

Individualized skin care programs are tailored to the specific needs of your skin. Ageless MediSpa carries prescription strength lines including Obagi, SkinMedica and Triluma.

Clinical Facial

This treatment includes steam, extractions and a medical grade exfoliant followed by a relaxing facial massage and mask. It targets a variety of skin disorders including aging skin, sun damage, rosacea and acne.

Teen Facial

These are facial treatments directed specifically towards teenage skin care needs.

Back Treatment

Treats clogged pores in the skin of the back and is supplemented by a deep relaxing massage.

Diamond Tome Microdermabrasion

This is a treatment that improves skin texture and color by removing the topmost layer of the skin leaving it more supple and vibrant. It also stimulates the elastic tissue beneath the surface of the skin resulting in a healthier and firmer appearance. Microdermabrasion also increases the permeability of the skin, allowing laser treatments and active ingredients in skin care products to be more effective. It is non invasive and pain free.

Illuminize Peel

This treatment is appropriate for the first time chemical peel patient or patient looking for a gentle and very superficial peel. The Illuminize peel increases skin glow and radiance, tightens the skin and restores a more youthful appearance. It improves clarity, color and skin texture with little or no visible peeling.

Vitalize Peel

The Vitalize Peel is a very superficial peel which is suitable for all skin types and requires little to no downtime. Results are seen after a series of peels, however changes are noticeable after just one peel. It can be used to improve acne related hyperpigmentation and melasma. The Vitalize Peel can also help fight the effects of time and sun damage, taking years off aging skin.

Microdermabrasion with Peel

This is an exceptional treatment that combines the chemical exfoliation of a peel and mechanical exfoliation of a microdermabrasion.

Laser Hair Removal

No matter what your skin type, permanently reduce unsightly and unwanted hair almost anywhere on the body. Treatments are performed in a series of 6 sessions spaced 4 to 8 weeks apart depending on the body part.

Vein Therapy

A wonderful and easy way to remove unsightly veins from all parts of the body without injections. Using laser technology, small facial veins can be treated quickly without bruising or long recovery times. Spider Veins of the legs are also treated with excellent results.

Laser Genesis Skin Rejuvenation

This procedure uses laser technology to safely treat uneven skintextures, scars, large pores and diffuse redness. The laser gently heats the upper layer of the dermis below the skin surface and is clinically proven to stimulate collagen growth. Over the course of 6 treatments, spaced 2 weeks apart, Laser Genesis will help restore your skin's youthful glow and appearance by smoothing uneven textures caused by aging, sun damage or scars.

The Pearl Laser

The Pearl laser replaces the entire top sun-damaged layer of skin with new healthy skin. Simultaneously, it sends heat to deeper layers of the skin stimulating new collagen growth, filling out and decreasing fine lines and wrinkles. New collagen growth continues for 4 to 6 weeks post-treatment. The combination of new skin and decreased wrinkles results in a healthier, more youthful appearance. The Pearl treats the entire face, minimizing the number of required treatments. Typically, only 1-2 treatments are necessary to renew your skin.
